

Dear Sir

The Cotswolds Conservation Board supports the objections of Natural England (who suggested the Board should be consulted on this application), the Councils urban design officer and the Friends of Winchcombe amongst others to these proposals. The design and layout is not considered to be of an appropriate standard for this important site which was acknowledged by the Planning Inspector to affect the setting of the Cotswolds AONB, nor does it provide an inclusive design for the affordable housing provision.

Yours sincerely

Malcolm Watt
Planning Officer
Cotswolds Conservation Board
