Highlights

Chavenage House

Oliver Cromwell visited this lovely Elizabethan Manor House in 1648 to persuade then owner Colonel Nathaniel Stephens to agree to the execution of Charles II. The house has been regularly used for TV productions and is open to the public between May and September, on Thursday and Sunday afternoons.

Rodmarton Manor

Built in 1909, Rodmarton Manor is the supreme example of a house built and all its furniture made according to Arts and Crafts ideals and was one of the last country houses to be built and furnished in the old traditional style when everything was done by hand with local stone, local timber and local craftsmen.

Tetbury

Tetbury was a town built on the woollen industry. The elegant Gothic style parish church, St Mary's, was rebuilt in 1781. The Market House rests on three towns of stout pillars and was built in 1665 for selling wool and yarn. The Chipping was the site of the cattle market until 1889. The Chipping Steps are medieval in origin. Today the town has bustling antiques industry.

Westonbirt Arboretum

Westonbirt Arboretum is one of the finest and most important collections of trees and shrubs in the world, founded by Richard Holford of Westonbirt House in 1829. There is a fantastic array of exotic trees and the spectacular displays vary from the deep autumnal colours of Japanese maples to the spring energy of rhododendrons, azaleas and magnolias.
